**h1. APPROVED SCHOOL MISSION (Regents, NYCDOE, and Buffalo BOE authorized schools only)**

**MISSION STATEMENT**

In an effort to represent the community’s prestige, The South Bronx Charter School for International Cultures and the Arts is a model of excellence providing its youngsters with a constructivist and child centered curriculum. Our intellectually challenging and standards based curriculum is enriched by our international perspective, the arts, and dual language program. Students receive a well-rounded education that uses the arts to promote excellence in all areas: cognitive, social, emotional, and moral. Our school meets or exceeds New York State Learning Standards, aligns student learning to those standards and supports teachers with professional development opportunities. Our community, our parents, and staff are empowered to participate meaningfully in our school to strengthen its potential for success.

**h2. KEY DESIGN ELEMENTS (Regents, NYCDOE, and Buffalo BOE authorized schools only)**

**KEY DESIGN ELEMENTS** (Brief description of Key design elements are those general aspects of the school that are innovative or unique to the school’s mission and goals, are core to the school’s overall design, and are critical to its success. The design elements may include a specific content area focus; unique student populations to be served; specific educational programs or pedagogical approaches; unique calendar, schedule, or configurations of students and staff; and/or innovative organizational structures and systems.

sequence, revising the alignment of content to state standards, sharing of best practices, checking on skill development and student achievement, planning based on assessment data, aligning the content taught in English and Spanish, and designing interdisciplinary units/projects. SBCSICA uses data collection and analysis to inform decisions about teaching and student learning. In order to produce data that can be used to drive decisions in instruction, SBCSICA utilizes a comprehensive assessment system, which includes Periodic and Interim assessments that provides feedback on an on-going basis and supports teaching and learning. To that end, SBCSICA administers periodic standardized norm-referenced exams (NRT), and Interim Diagnostic & Predictive assessments coupled with Constructed Response items. Based on the results from interim assessments, teachers proactively identify areas to grow and have the ability to customize and generate instructional materials.

More specifically, the periodic reading inventory assessment is given in English and Spanish. Developmental Reading Assessment (DRA) and Evaluación del Desarrollo de la Lectura (EDL) are administered on a consistent basis and as needed. As a Dual Language school, the EDL helps us to measure language acquisition for native and nonnative Spanish language speakers. Tasks measured by the DRA and EDL tests are divided into several skill sets. Rhyming, alliteration, segmentation, and phonemic awareness are tested in the phonemic awareness section. Letter naming, word-list reading, spelling, decoding, analogies, structural analysis, and syllabication are tested in the alphabetic principle/phonics portions. Oral reading fluency or words per minute for contextual reading are tested under fluency. Vocabulary, comprehension, and reading engagement skills are also measured in these tests. Once the test is scored and evaluated, the teacher gains a comprehensive understanding of those areas of strength and weakness and can assign a numeric and or alphanumeric reading level. This process empowers student’s reading engagement because they understand and can easily identify a “just right book” by choosing a book with the corresponding DRA and EDL level.

Teachers develop a deeper understanding of expectations for student work and means of assessment in a variety of different formats. Regular professional development sessions allow teachers to engage
in dialogue that creates a common frame of reference. Teachers share, review, and discuss actual samples of student work and best teaching practices. Specific assessment rubrics have been developed and are used to provide a common framework of evaluation. These rubrics are used by teachers to assess work relative to grade content standards, and will allow teachers to determine what skills need to be re-taught and practiced. Teachers regularly analyze student work throughout the year using performance rubrics, individually, in grade conversations, and in conversation during grade level planning meetings. Project based assignments are also used as a meaningful form of assessment. Teachers review student work at various times including planning meetings as items may be used as teaching points in grade level performance and development. Grade and subject specific team meetings allow for more in-depth examinations of student work and will allow teachers to share and discuss examples of student work and teaching practices, raising expectations across the board. Teachers and school leaders alike have high expectations of student work and assessment across the grades. The continuum of analysis teachers to design meaningful lessons, which move students toward mastery.

Students in need of greater assistance with curriculum content areas will also have the opportunity for additional focused time within the school day. <td>SBCS strongly believes that all students should have access to the core curriculum, and there are clear procedures for identifying special populations and meeting their needs. In fact, the DOE has cites that the “school adequately addresses the academic and nonacademic needs of students in need of remediation, students with disabilities, students with interrupted formal education, and gifted students.” Methods and strategies for serving students with disabilities are in place in compliance with all federal laws and regulations. all students. For those students with IEPs that require related services and/or a resource room setting, the school directly provides these special education services. SBCS asks the student’s district of location to provide related services. For those students with IEPs that require related services, such as counseling, speech, occupational therapies, and physical therapies, the school contracts with either the student’s school district of residence or a private provider. Should a student require more restrictive placement, such as a special class for part of the day, the school and parent will ask the CSE to convene an IEP meeting to determine whether the current recommendation is appropriate or if it can be modified. All students receive academic assistance through a tiered system of interventions. A struggling student receives Tier 1 interventions in the general education classroom that will include differentiated instruction, flexible grouping and classroom accommodations. A student who does not make sufficient progress with Tier 1 intervention receives more intensive interventions and strategies to help her master the material presented in the classroom.

A student who continues to struggle is referred to the Pupil Personnel Team (PPT). The PPT develops a plan to employ more intensive, individualized interventions that will be provided in addition to what the student was provided in Tiers I and II. These interventions are closely monitored to assess the level of support required for the student. A student who requires intensive individualized interventions to make any progress will be referred to the CSE for further evaluation. This referral will include the four-page CSE Referral Form as well as all the data collected at Tiers I & II. Teachers will provide a progress report based on student performance and samples of student work. Conference results from meetings with the parent/PPT will also be included in the referral. Finally, any chosen facility will accommodate the special education program and services outlined above and will be ADA compliant. In addition, the proposed budget will include a special education coordinator and expenses associated with the related special education services. SBCS ensures that teacher(s) of a student with a disability participate in meetings of the Committee on Special Education, and have access to and understand their responsibility to implement the IEP. To achieve this end, the regular education teacher will participate in the CSE meeting. Also, the special education teacher/coordinator is responsible for attending
each CSE meeting and ensuring that other
special education providers, if appropriate and parents
attends the CSE meeting.
To ensure that teacher(s) of a student with a disability have
access to and understand their
responsibility to implement the IEP, SBCS designates a
special education teacher/coordinator to oversee the
provision of special education services in accordance with
each child’s IEP. The special
education teacher/coordinator position will be responsible for
the following:
(i) communicating on a regular basis with the CSE of each
student’s district of residence;
(ii) coordinating special education referrals to the CSE;
(iii) ensuring that the appropriate school staff members and
parents participate in CSE meetings;
(iv) reporting to the CSE regarding student’s progress toward
meeting IEP goals;
(v) reviewing all students’ IEPs;
(vi) collecting student records from the CSE;
(vii) maintaining and securing in a locked cabinet all
confidential files; and
(viii) coordinating the implementation of special education
services as per the IEP with the school
district, private providers, and the school’s classroom and
special education teacher(s), as
appropriate.

The special education/coordinator ensures that each regular
education teacher and any related service
provider who is responsible for the implementation of a
child’s IEP will be given a copy of the IEP prior to its
implementation. In addition, the school requires that the
copy remain confidential and that it cannot be re-disclosed
to any other person, in compliance with IDEA and FERPA.
Moreover, prior to the
implementation of the child’s IEP, the special
education/coordinator informs each teacher and
assistant of his or her responsibility relating to the
implementation of the IEP with respect to the
accommodations, modifications, and supports required as
described by the IEP.
Finally, in an effort to provide general information about
special education, the special
education/coordinator provides pre-service and ongoing
training to all teaching staff covering the
referral process to the CSE, implementation of a student’s
IEP, evaluation of a student’s progress
toward meeting IEP goals and objectives, reporting
requirements to parents and the CSE, the importance of
confidentiality of student records, and discipline of students
with disabilities. Please note that there will be no specific
mention of any child’s
SB

IEP.

SBCS has several structures in place to assure that special education students of all levels are given appropriate instructional support. Further, SBCS uses Response to Intervention (“RTI”) and Pupil Personnel Teams to support our students.

Response to Intervention In SBCS’s general education classrooms teachers will differentiate instruction to address different modalities of learners (RTI Tier I). Teachers screen students on a periodic basis and make accommodations that target student differences, which may include manipulatives in all subjects, small group instruction, adding visual resources during verbal lessons, or stations in social studies or science classes.

For struggling learners who need additional support and who are not making adequate progress in the core curriculum and skills, SBCS will use small group instruction, push-in/pull-out, Title I services, and alternative supplies and materials. These Tier II interventions are targeted to their needs based on their levels of performance and will be available to all students who need them, including students with IEPs.

RTI Tier III is remedial and intensive in nature. At this level of intervention, both students who have IEPs that mandate pull-out SETSS (NYC)/Resource Room and general education students identified as needing additional support based on their student assessments receive intensive interventions that target the skill deficit of the student. The goal of tier 3 is for remediation of existing problems and prevention of more severe problems. This process may identify a general education student who needs this level of intervention and may need special education services. For students who already have an IEP, Tier III will provide the necessary information to request a review to adjust the IEP accordingly. In both instances, written parental consent is needed by the CSE to proceed. At this level, SBCS will recommend that the student's parent be notified and encouraged to participate so that a referral is the result of collaboration and consent might be more forthcoming.

In any case, the Tier III Interventions must continue whether or not the parent gives CSE consent. Also, this student is now "presumed to have a disability" and to have rights under IDEA, even if he/she does not have an IEP.
Pupil Personnel Team (PPT) - Any SBCS student who is having trouble at Tier I, regardless of whether or not they have an IEP, is referred to the PPT. The PPT discusses strategies and interventions with the general education teacher and they come up with a plan of intervention (Tier III) for behavior or academics. This plan is monitored and a progress report must be presented to the PPT.

Other Supports
Students who have IEPs for related services such as counseling, speech, occupational therapy, or physical therapy will not be excluded from appropriate interventions. In addition, if a child is pulled out for several services and SETTS, SBCS will work to make sure the child still accesses the general education curriculum.

The Title 1 teacher will be available during the school day to provide push-in and pull-out services for English language learners. Given that SBCS is a dual language school, students who are fluent in a language other than English maintain fluency in their native language while gaining proficiency in English.

In addition to this in-class support, the remediation/enrichment period will be used as an opportunity for the Title 1 teacher to work with students struggling with language acquisition on vocabulary development and literacy skills so that all students are comfortable reading, writing, listening and speaking in English and Spanish.

For purposes of ensuring the adequacy of programs for ELL students, SBCS will assess the progress of all ELL students on an ongoing basis. All ELL students will annually take the New York State English as a Second Language Achievement Test (NYSESLAT) to evaluate their English proficiency. The scores on the NYSESLAT indicate the proficiency level the student has achieved each year, and whether the student’s level of English proficiency is high enough to exit the ESL programs or services.

Interim Assessment
With regards to academic performance, the board’s Academic and Personnel Committee will regularly review student assessment data from state and interim assessments to inform conversations with the principal and review the overall academic progress of the school. The school will use diagnostic interim assessments developed in-house and unit tests provided by curriculum publishers to provide intra-year assessments of student performance in reading,
math, social studies, and science. The regular feedback provided by these tests will help teachers adjust and personalize student instruction throughout the year as necessary. Data from these exams will not be used to support the school’s application for charter renewal. These tests will measure grade level performance (i.e. below, at, or above grade level) in specific skills and content knowledge (e.g., multiplying fractions, phonemic awareness, historical facts, etc.). Given that each subject is taught using content that is aligned with the State learning standards, the test results will be good predictors of how well students are doing against those standards. Also, these assessments allow instruction for a particular child’s needs to be adjusted in real time each year, rather than waiting until end-of-year exams.

Teachers regularly analyze student work throughout the year using performance rubrics, individually, in grade conversations, and in conversation with the principal. Teachers review student work at various times throughout the year and assess development and progress in a variety of areas, both academic and non-academic in nature. The principal is responsible for ensuring consistent expectations of student work and assessment across the school.

Grade and subject specific team meetings allow for more in-depth examinations of student work and will allow teachers
to share and discuss examples of student work and teaching practices, raising expectations across the board.

In pre-service and in-service training sessions, all student assessments employed by the school will be reviewed in detail with the teaching staff. The principal and/or assistant principal will discuss the content and format of the exams to ensure the teachers have a clear and common understanding of the student learning standards, and the format in which they will be tested. This understanding of the assessments allow teachers to design classroom projects which move students toward mastery while permitting teachers to ascertain throughout the year which students may need additional instruction or practice to meet proficiency standards.

Variable 7

School Schedule
The goals of the daily schedule are to devote significant instructional time blocks to master the core content subjects and meaningfully explore topics and acquiring a language, and meet/exceed all of the New York State Learning Standards. SBCS employs an extended school day to ensure sufficient time for proper implementation of its educational program. The duration of the school day will be 8 hours as compared to the typical public school day of 6 hours. This represents approximately a 25% increase in the school day. The school day will begin at 8:00am, with an optional breakfast starting at 7:40am, and end at 4:00pm.

Our classrooms engage students and promote active learning throughout the day. Students are not sitting at desks for hours on end. In fact, every aspect of the school day right down to classroom set-up is designed to encourage physical movement of our students.

In addition, our curriculum and instructional methods promote engagement through inquiry-based learning, manipulatives, and hands-on activities that bring the curriculum to life. The school’s Social Studies curriculum, is specially designed to channel young children's energy into active learning activities across subject areas. Our curriculum involves heavy dance, movement, and song and "act-out" components. Moreover, the cultural components that support the dual language focus of our school encourage students to express themselves through artistic means, such as song, dance, and spoken word. In every lesson throughout the day,

II. Operations Report: (Evelyn Ramirez) – report attached
   - Check # 3804 dated 3/2/17 for $6,816.68, payable to The National Center for Teaching Thinking, Inc. was a replacement check; the original check #3802 dated 2/16/17 was cancelled.
   - Evelyn discussed compliance forms for the audit.
   - There was discussion concerning the tracking of uniform sales. Paul will create a separate line item.
II. Principal's Report: (Evelyn Hey)—report attached

- Ms. Hey reported that the current enrollment is 401 students and attendance is currently at 91.1%.
- Ms. Hey also reported that the ELA (English Language Assessment) would be administered on March 28th, 29th and 30th. (untimed)
- March 7th and March 8th have been designated as half days for distribution of report cards. This was changed from one full day due to the school closing (snow storm).
- The school’s charter renewal application is due in November 2017 as the School’s current charter expires in June 2018. This will also include possible expansion to include a middle school (grades 6-8) to commence after June 2018. A newly formed 6th grade could be housed in the current building. Sites for the middle school are also being researched. If a site is to be rented, the DOE would be responsible for 20% of the payment. A nearby parochial school, possibly closing, is a possible site.
- A possible change of SED authorization may be included in charter renewal. (Motion made by Priscilla Ocasio and seconded by John Potapchuk seconded) Unanimous

III. BoostEd Financial Report: (Paul J. Augello) report(s) attached

- Paul Augello stated that per pupil revenue is based on a current billable enrollment of 410.725. Financially, we are in good shape. (Report attached to minutes)

IV. Old Business:

- John Potapchuk made a presentation concerning financial responsibilities for charter school boards based on information discussed at a conference at the New York City Charter School Center which he attended on March 1, 2017 (Report attached to minutes). Based on the matters discussed at the conference, he believes that SBCS and its Board have demonstrated responsible financial management.

V. New Business:

- None, except for the charter renewal discussion under the Principal's Report

Students in need of greater assistance with curriculum content areas will also have the opportunity for additional focused time within the school day. Methods and strategies for serving students with disabilities are in place in compliance with all federal laws and regulations. Furthermore, SBCS provides professional development to teachers who create varied and small groupings in the classrooms that support learning for all students. For those students with IEPs that require related services and/or a resource setting, the school directly provides these special education services. SBCS asks the student’s district of location to provide special related services. For those students with IEPs that require related services, such as counseling, speech, occupational therapies, and physical therapies, the school contracts with either the student’s school district or a private provider. All students receive academic assistance through a tiered system of interventions. A struggling student receives Tier 1 interventions in the general education classroom that will include differentiated instruction, flexible grouping and classroom accommodations. A student who does not make sufficient progress with Tier 1 intervention receives more intensive interventions and strategies to help them master the material presented in the classroom.</td>

**Instructions for Reporting Percent of Uncertified Teachers**

The table below is reflective of the information collected through the online portal for compliance with New York State Education Law 2854(3)(a-1) for teaching staff qualifications. Enter the relevant full time equivalent (FTE) count of teachers in each column. For example, a school with 20 full time teachers and 5 half time teachers would have an FTE count of 22.5. If more than one column applies to a particular teacher, please select one column for the FTE count. Please do not include paraprofessionals, such as teacher assistants.

**Staff Qualifications (June 30, 2017)**

Note: Columns should sum to the FTE count of Teachers on June 30, 2017, and each teacher should be in only one column.
